Message

Wishing you all a Very Happy and Successful New Year 2022!! I wish to convey my heartfelt greetings and best wishes in the form of this message to all the members on IEEE Uttar Pradesh (UP) Section, and other readers of 2021 Annual Report of the IEEE Uttar Pradesh section. 2021 was very challenging for IEEE UP Section for various reasons. Many ExCom members and their family members were affected by Covid-19 pandemic. UP Section was another milestone in the history of the section. IEEE member fully supported the actions of the section, and it will always be memorable to all of us. New Section bylaws is also a landmark. Personally, I am very close to the UP section, as this is my parent section and I started my journey of IEEE in India from this section only. I was very closely associated with the IEEE UP section in various capacities and witness the growth and the vibrancy of the section in almost all the facets of the activities. Needless to mention that, from the last few years the section is growing like anything and this year also Section got the highest region R10 (Asia Pacific) incentive award of USD 3000. In terms of the IEEE related promotions, membership development, professional, technical, non-technical, social, networking, SIGHT, WIE, YP, students and other activities, the section made a mark, which is really distinct and eye catching for all of us. As far as the professional and ethical practices are concerned the section is following a good benchmark. The section is associating so many young engineers, which is certainly beneficial for the research and development culture for the country and the society at large. I feel that the growth of the section is unstoppable now. I hope the section will continue to support all the IEEE members and keep promoting the real technical interests among the young minds of the section. The leadership under New UP Section Chair, Dr Satish K Singh added some more feathers to it. My best wishes for the ever growth of the section.

Chairman, IEEE UP Section

Message

It gives me immense pleasure to write this message as Chairman IEEE Uttar Pradesh Section 2021 for the annual report to be released in AGM-2022. My deepest condolences to all the departed souls of our near and dear, family members, and friends during the toughest time of Covid-19. It was really testing time and hope to have a better tomorrow ahead. I wish you all a very happy new year 2022. I am happy to state that despite the tough time of Covid-19 our section volunteers have demonstrated wonderful capabilities in the form of many big and impactful activities throughout the section. In terms of the activities, we crossed 1000 and again like last few years could secure its place in the list and get awarded the first position among the 60 sections of IEEE R10 (Asia Pacific Level). In terms of membership recruitment, retention, and reinstatement, we crossed the 4000 till December 2021 and got the gold category award by MGA. Section successfully organized the UPCON and 10 executive meetings including many other meetings, a general body meeting in 2021. The section has successfully run the membership elevation drive and approximately 55% growth in member to senior-member has been observed in 2021 on a YoY basis. About 97%, and 10% growth in terms of the StMs/GSMs, professional membership growth has been observed in 2021 on a YoY basis. About 60% growth has been observed in terms of the voting members in the section in 2021. In the year 2021, the section has successfully executed many initiatives like U10, Incentive Award, WIE, YP, SIGHT, Educational, Professional, Technical and Non-Technical. More than 45 student branches and 9 Chapters, and YP & SIGHT affinity groups received the annual rebate against their activities and reported to vTool. Separate project grants for YP, WIE, and Education have been received by the section. The section has started many awards and recognitions to connect its members. Section successfully executed the special certification workshops, seminars, webinars, hands-on for the StMs and GSMs. I just want to mention a few new initiatives like Graduate Talk Series, Conference Travel Grant Program for GSMs/StMs, Conference Registration Fee-Waiver Arrangements, Industry Connect Cell, Industrial Internship Program, YP Star of the Month Program, and WIE and YP Talk Series were successfully executed in 2021. A lot of vibrancy has been observed throughout the year 2021. The entire credit goes to section volunteers for their great efforts to keep such a high standard of the Uttar Pradesh Section. The section is growing at an express pace and hopefully will continue the same in 2022. My sincere thanks to all the volunteers of the section without whom it was not possible to attain such a high level. My best wishes for 2022.

IEEE Uttar Pradesh Section

Immediate Past Chairman, IEEE UP Section

Message

I am pleased to be a part of the IEEE UP Section, which has shown phenomenal growth in 2021. I congratulate all the office bearers and members of the Uttar Pradesh Section who have contributed significantly to making the IEEE Uttar Pradesh section very vibrant and marked a noticeable presence on the IEEE map globally. Even in pandemic times, the number of Section volunteer's activities and events is remarkable.

The membership growth is more than 20%, and the number of activities has been increased. We have also received several awards from IEEE. The Section conference UPCON-2021 was also well organized in hybrid mode, and a good number of contributed papers were presented. The present Section Chair, Secretary and Treasurer, have brought the section to a new level. Further, I congratulate the new team of office-bearers of the Uttar Pradesh Section for 2022 and convey my best wishes for their successful tenure.

(Asheesh K Singh)
Immediate Past Chair,
IEEE Uttar Pradesh Section

PART A – Section Summary

A.1 Executive Summary

IEEE Uttar Pradesh Section, which is one of the 12 sections in India and geographically covering three operations in Uttar Pradesh and Uttarakhand. The Uttar Pradesh Section is located in Region 10, and is represented at the India Council. Although the IEEE activities were started in the section from 1970 and it was the sub-section under the Delhi Section. It was the wholehearted efforts of Dr. G. K. Dubey that a full section could be formed named as “IEEE U.P. Section” in December 1991, who took over as the first and the founder Chairman for the year 1992. Since then, the IEEE Uttar Pradesh section is continuously involved in promoting the IEEE and various technical fields of interest through various activities. The membership growth and number of activities in the section is strictly monotonic since its inception and is the only reason that today it is one of the most vibrant sections in India. Today IEEE Uttar Pradesh section is un-ignorable and having the strong leadership not only at India Council level but at Asia Pacific level too. Prof. S. N. Singh who was one of the past chairs of the section, India Council Chair, 2019 & 2020 and he represented at R10 level also in Vice-Chair and other capacities was honored with IEEE MGA 2021 award for “*Exemplary Leadership and Distinguished Contributions at the Section, Council and Region Levels*”. Many other executive committee members are having representation at India Council, R10 level and BOG IEEE USA. The section received many awards and recognitions in recent years. It is very pertinent to mention here that section was ranked among best performing large Section Category in 2021 by Region 10. In last few years, many new student branches, branch chapters and affinity groups have been formed in the section and Section dynamics has been increased immensely. This annual report presents some facts and figures regarding vibrancy of the section in terms of the activities and membership strength in 2021. The next office may take a reference of this report and may plan the directions for 2022.

A.2 Section Highlights

Since past few years, IEEE UP Section has continuously growing, both in term of membership as well as activities. In year 2021, our membership strength reached to 4000 and we have organized total 1183+ events throughout the year. Both these achievements are new records for our section. IEEE UP Section is one of the most vibrant sections in India and R10 level. A brief summary of section can be given as follows:

- Number of members- **4000**
- Number of sub-sections - **1**
- Number of society chapters - **21**
- Number of student branches - **98**
- Number of student branch chapters - **107**
- Number of WIE Affinity Groups – **27**
- Number of Student SIGHT Groups - **10**
- Number of events organised in 2021 – **1183**

Activity-based Incentive Grant, 2021

To recognize the efforts of active student OUs of section, in 2019, the IEEE Uttar Pradesh Section started an activity-based section incentive grant program for all the operational units. The top-five ranked student branches are listed below:

Prize	Awardee
First	Babu Banarasi Das Inst of Tech & Mgmt, Lucknow
Second	Teerthanker Mahaveer University, Moradabad
	Indian Inst of Technology-Kanpur
Third	Pranveer Singh Institute of Technology, Kanpur
	Amity University-Noida

U10 Initiative, 2021

IEEE UP Section has launched a dedicated initiative to promote IEEE activities as local student units and to encourage extensive involvement of student members in these activities. The participating units were required to organize minimum 10 IEEE event. Many student units had participated in the initiative, however only the following units have been successful in completing the challenge.

	OU Name	GeoCode
1	Zakir Hussain Coll of Engineering & Tech	STB08111

B.4 Initiatives by IEEE UP Section

IEEE UP section has always worked on to spread the philosophy of connecting people and making technology more relevant in the lives of the common man. IEEE UP section has always endeavored to achieve the objective of IEEE through its self-motivated volunteers. The year 2020-21 was particularly relevant terms of achieving this feat. The year 2020-21 saw a pragmatic change in the working style of the section. The objective of IEEE UP section was make IEEE UP section more relevant for IEEE members in terms of their professional development. The point was to directly connect with each of the IEEE members and volunteers such that they feel the change in their lives. To serve this objective, IEEE UP section customized its policies to serve and satisfy the basic professional requirements of its members and volunteers.

The results of the efforts this year became visible in a short span of time. IEEE member and volunteer's satisfaction resulted in increased membership retention. The existing members therefore motivated new members to join. Large number of activities have been reported from majority of the units of IEEE UP section.

Below is the detail of all the activities that were launched in the year 2020-21.

1. IEEE UP Section Volunteer Training Sessions:

The Student activity committee was formed and then got into action. For the proper functioning of the IEEE units, it is very necessary that the volunteers at the root level understand the working of the IEEE. It is therefore that this time the Student activity committee of the IEEE UP section decided to hold training sessions on periodic intervals so that the newly joined volunteers of IEEE may get accustomed to the working environment of IEEE. It is with this objective that **volunteer training sessions** were organized by IEEE UP section. The volunteer training sessions were organized separately for counsellors of the student branches, student branch chairs, office bearers of the student branches and new members of the IEEE. The advantage of the volunteer training session was that the student participation increased.

2. IEEE UP Section U10 Initiative

IEEE U10 Initiative was launched with the motive to activate the most potential and yet dormant IEEE members and units towards greater participation. The entire idea was that greater participation would mean membership retention and membership retention would mean more number of new membership.

Under the U10 initiative, units of the IEEE UP section were requested to send their plans for organizing at least 10 activities in the whole year. This proved to be very motivating for the various student units of the IEEE UP section. They not only held 10 planned activities but also continued with the momentum and planned many more activities. The U10 initiative has been one of the most successful initiative that has led to increased membership, particularly among the graduate students.

3. IEEE UP Section Industry Connect Initiative

IEEE UP section launched the **Industry Connect initiative** that allowed several companies and experts to connect with IEEE UP Section for the benefit of graduate and under-graduate students.

a) Industry Connect Cell

To establish industry academia connect, Industry Connect cell was formed. The formation of the Industry Connect cell helped to form several collaborations between industry experts and academia. Internship program was implemented and several talks and hands-on were also implemented by Industry Connect cell.

b) Internship programs

Three **internship programs** were conducted by IEEE UP section in collaboration with different companies and experts. ConsultIt, an IT company, provided two internship programs to students. One internship program was on AWS technology and the other was conducted in the domain of Computer Vision. 22 students from IEEE UP section benefited from the internship program.

Another internship program was provided to the students of the electrical branch by Mr. Subhro Roy. Mr. Subhro Roy is an Engineering Manager, Regional Application Center (RAC) Asia Pacific, Schneider Electric is providing the internship course to the students in his personal capacity. 10 students are continuing their internship under Mr. Subhro Roy and are completing their project under his guidance.

c) Industry Connect Webinar series

Industry Connect Webinar series by experts from the industry was also conducted under the Industry Connect program. Webinar were conducted on topics such as The Semiconductor Industry: Opportunities & Challenges; Emerging Technologies and Business Opportunities for Entrepreneurship.

4. IEEE UP Section SAC Workshop Series:

The student activity committee of the IEEE UP section successfully organized collaborative workshop from 8 to 11 January. The workshop was organized online. IEEE Technical Workshop encompassed technical, professional and nontechnical activities for young learners. Each day different sessions were held for a span of 30 minutes. This included webinars and counselling sessions. To increase participant engagement, activities like online quizzes, counselling sessions were held. To give the participants a hands-on experience of IEEE, the prominent members shared their experiences.

5. IEEE UP Section Technical Hands-on Workshop Series:

It is very necessary to apprise the students with the latest technological advancements. Such know-how always helps the engineering students to choose the technology of their choice and prepares them for professional challenges ahead. With this motive, a one day workshop series with hands-on was launched. The experts from both industry and academia participated in the event and shared their experience and know-how with the IEEE members. The experts

conducted 4 hours of exhaustive hands-on session online to allow the students to make an easy start in the technology.

Sessions were conducted on the following topics:

- a) Basic Python Programming,
- b) Embedded System Design using MSP430,
- c) IoT Development and Data Visualization on Cloud using NodeMCU,
- d) Full Stack Web Development using Angular Framework,
- e) FPGA based digital system design using VHDL.

6. IEEE UP Section Graduate Talk Series:

IEEE UP Graduate Talk Series is an initiative of the IEEE UP Section to enhance the membership experience of the IEEE Members. It presents a unique opportunity to the Ph.D. student of the section to share their knowledge and idea with the engineering and research community. To the audience, it offers a glimpse of the ongoing research in different domains. While it provides an opportunity to the speaker to fine-tune their soft skills to the audience, it helps in understanding the vast scope of the field as well as guidance to their career planning. It presents a fantastic networking opportunity for both, and it will strengthen the research community. With due approval of the section authorities, it was launched in October 2021.

7. IEEE UP Section Webinar series:

The Student activity committee of the IEEE UP Section initiated an IEEE Webinar series in collaboration with experts from industry and academia. The objective of the IEEE Webinar Series was to hold short 1-2 hour talk from experts in their domain. The most sought-after topics were covered in the IEEE Webinar Series. The topics that were covered in the series are:

- a) Patent Life Cycle and Management
- b) Sensors and Actuators
- c) Patent Monetization
- d) Cyber Security
- e) Analog Integrated Circuit Design Using CMOS Technology
- f) Computer Aided Diagnosis: Current Status and Future Trends
- g) Ferroelectric bioimplants as new generation materials for orthopedic applications

8. IEEE UP Section IEEE Day Celebration:

For all the volunteers across the world, IEEE day is a very special day. The IEEE UP Section planned to celebrate the day in a very special way so that all the units across the Uttar Pradesh section feel and celebrate the IEEE day in one toe. Initially, all the units of IEEE UP section were requested to send their plans for the IEEE day celebration. A special plan was launched for **IEEE Day Event Reporting & Financial Support from IEEE UP Section**. Under this plan, all the units who conducted IEEE day events as per their plan, reported the same on vTools, wrote the content for the section Newsletter was provided financial support from the IEEE UP section in proportion the number of members in their unit.

The IEEE was a huge success and units from IEEE UP section celebrated the IEEE day with enthusiasm.

9. IEEE POCO

The IEEE Region 10 Panel of Conference Organizers (POCO) is a high level annual International Workshop held for event organizers throughout the countries of Region 10 having 61 Sections. POCO convenes workshop thought leaders and decision makers to address conference leadership practices, changes in policies and approaches specific to IEEE, to explore challenges in the conference landscape, launch new conference initiatives and to set new directions. If you are an IEEE Volunteer involved in conferences, this is an event must for you, your IEEE Organizational Units to be inspired by unparalleled learning, thought provoking and insightful sessions that will provide a real advantage to your conference planning. This IEEE R10 POCO-2021 is a virtual event has been financially sponsored by R10 and Technically sponsored and organized by IEEE UP Section.

10. IEEE UP Section Young Professionals

The IEEE UP Section under the leadership of Chair IEEE UP section Dr. Satish Kumar Singh in collaboration with Young Professionals Committee led by Chair Dr. Varun Kakar under the guidance of Prof. S. N. Singh, and Prof. J. Ramkumar and esteemed executive committee members, took the following new initiatives in the year 2021:

- a) **Technical Lecture Series:** The Technical Lecture Series is a new initiative taken in 2021. In this lecture series, eminent speakers from industry as well as from academia are invited for the expert lecture and interact with IEEE members and non-IEEE members. Till date, the expert speakers from IIT BHU, IIIT Allahabad and other well-known institutes and industry have delivered lectures in the technical lecture series.
- b) **Professional Lecture Series:** The Professional Lecture Series is a new initiative taken in 2021. In this lecture series, eminent speakers from industry as well as from academia are invited for the expert lecture and interaction with the IEEE members and non-members. Till date, the expert speakers from Indian Army IIT BHU, IIIT Allahabad, Shiv Nadar University and from other well-known institutes and universities and industry have delivered lectures in the professional lecture series.
- c) **Young Professionals Star of the Month:** With the collaboration of IEEE UP section, Young Professionals took a new initiative called **Young Professionals Star of the Month**. In this, each month starting from February 2021, a Young Professional Star of the Month is selected for the award based on various parameters such as the academic profile, IEEE Volunteer Experience etc. The committee and IEEE UP section have declared the award till the month of September 2021.
- d) **Creation of YP YouTube Channel:** A YouTube channel of IEEE UP Section Young Professionals (https://www.youtube.com/channel/UCTqOF2MHOZg_TS6bCrqlgSg) has been created where the lectures conducted under Technical Lecture Series/ Professional Lecture Series and other events are uploaded for the benefit of the IEEE members and non-members. Till date, 09 lectures have been uploaded on the YouTube channel.

- e) **Funding Proposals:** IEEE UP section Young Professionals (YP) submitted project proposals 02 project proposals for funding to IEEE Young Professionals Region 10. The proposals have been approved by IEEE Young Professionals Region 10. The report for one project has already been submitted. One more project proposal by IEEE UP Section YP is under preparation and will be submitted to IEEE Young Professionals Region 10 latest by 20 Nov. 2021.

11. IEEE UP Women in Engineering Section

The IEEE UP Women in Engineering (WiE) Section worked on diversity of areas like Education, Health, Financial Liberation, Emotional Empowerment, Personality development and Environmental Sector.

IEEE UP WiE section organized **IEEE WIE Project based Learning School Camps -Part 1** and **IEEE WIE Project based Learning School Camps- Part 2** in the month of April. The two initiatives aimed at encouraging students learn and understand the practical implication of cutting-edge technologies and to foster technological reach to primary and secondary school levels so as to them aware of the challenges ahead.

IEEE UP WiE section organized **Empower Women Lecture Series** to empower women by enhancing their emotional intelligence (EI), Emotional quotient (EQ) and Emotional Intelligence Quotient (EIQ). Topics like **Emotional Intelligence at Workplace, Liberate women** were discussed in the lecture series.

On the occasion of **International Women In Engineering Day**, IEEE- WIE AG UP Section organized an **Online Technical Summit Promoting Assertiveness** for students, faculties and experts from industry.

12. IEEE UP Section Financial Support to WiE, SHIGHT and YP activities

IEEE UP Section provided Rs. 15000 to each of the units Women in Engineering (WiE), IEEE Special Interest Group on Humanitarian Technology (SIGHT) and Young Professionals (YP) for organizing IEEE Activities. Additional 15K for each of the units also has been approved.

13. IEEE UP Section Travel Support for Conferences

IEEE UP Section took an initiative to provide travel support to IEEE members who participate in conference. The IEEE section is providing travel support to 10 IEEE members per conference. The initiative has been taken to encourage IEEE members to publish papers in IEEE conferences.

**14. IEEE UP Section Awards**

With the intention to encourage student units of the IEEE UP section to hold activities and motivate people to join IEEE, several awards were announced. In some cases, the nomination process, eligibility criteria for the awards were modified so that the awards continue to motivate and inspire more participation from IEEE members. The awards of the IEEE UP section are as follows:

- a) Outstanding Branch Counselor/Chapter/AG Advisor Award
- b) Best Student Branch and Student Chapter Award
- c) Outstanding Section Student Volunteer Award (Two)
- d) Activity-based Branch/Chapter Incentive Award
- e) Best Emerging Branch/Chapter Award
- f) Branch/Chapters membership growth/retention Award
- g) Technologist of the Year Award (One Male and one Female)
- h) UP Section Starts-up of the year Award
- i) Educationalist of the Year Award (one Individual and one Organizational)
- j) Prof GK Dubey Memorial Life-Time Achievement Award

15. Membership Elevation drives

IEEE UP section elevated several eligible members to Senior member category. The process is still going on and those eligible members are being promoted to senior member category. The promotion has motivated the IEEE members to work with more zeal and energy. At the same time IEEE UP section is able to get the services of better and experienced members at higher level in the hierarchy. This has increased the working efficiency of IEEE UP section. Several programs could be efficiently implemented because of the experienced and energetic members.

16. Pre-University Activities

IEEE UP section also aimed at promoting IEEE among the pre-university students. To achieve objective, number of activities were approved by IEEE UP section. IEEE UP section could successfully attract the attention of pre-university students through the organization of such activities.

17. Professional Activity

IEEE UP section sanctioned professional project for the promotion of education, innovation, and Research & Development etc, in diversified area. The IEEE UP section sanctioned Rs. 1 lac for the first phase of the project. The second installment was planned to released based on the outcome of the first phase.

B.5 Strategic Plan

1. Membership value addition

The IEEE UP Section is dedicated to membership value addition of all its members. For the same, section has continuously organized different activities covering the entire spectrum of IEEE activities. We are continuously increasing both quantity and quality of the section activities. In the upcoming year. We are focused to organize more and more seminars, webinars, interactive sessions, workshops, conferences etc. This year section has started multiple series of such activities. We plan to increase their number in future. Few of these activities are:

- a) YP Professional lecture series
- b) YP Technical lecture series
- c) Technical hand-on workshop series
- d) SSAC workshop series.

2. Engaging all for enhanced experience

The membership experience begins at the local units, and so, it is very important to have active student branches and chapters. To ensure that all the units are active and involved in IEEE activities, we have taken a few new initiatives. Our focus to increase their impact by involving all the units as well as to launch few more initiatives. These initiatives are:

- a) **U10 initiative** – In this initiative, all the student units are required to organize minimum 10 activities per year. The units participating and completing this target will receive financial support from the section. In this way, all the dormant units will start organizing IEEE activities, which in turn will enhance the membership experience.
- b) **Volunteer training** – Volunteer training is an integral part for any organization unit to function efficiently. This year we have organized a series of volunteer training session for the office bearers of the student units. For the next year we plan to increase the frequency of these session. These sessions will focus on creating awareness about IEEE, its functioning tools etc. Also, they would help in activating the dormant units.
- c) **Section Activity Based Incentive Award** – Following the R10 activity-based incentive program, IEEE UP section has taken similar initiative for student units of the section. This has resulted in more vibrant student units. Our next plan is increasing the benefits for the units through this program.
- d) **Financial Support for IEEE Day activities** – With the motive to involve everyone and create awareness about IEEE. Section extends the financial support for IEEE activities by student units. In the upcoming year, we plan to increase the support for improving the event quality.

3. Create more opportunities for the members

IEEE UP Section is continuously creating new activities and opportunities for its members. This year we take few more initiative in same direction. For the upcoming year, we plan to nourish these initiatives and also create few more similar initiatives. These initiatives are follows:

- a) **Graduate Talk Series** - IEEE UP Graduate Talk Series is an initiative of the IEEE UP Section to enhance the membership experience of the IEEE Members. It presents a unique opportunity to the Ph.D. student of the section to share their knowledge and idea with the engineering and research community. It is a wonderful platform for research-oriented discussions. We plan to increase the frequency of these talks in future.
 - b) **YP Star of the month** - In this an initiative to identify and recognize the Young Professional for the continuous and contribution to IEEE and society.
4. **Harnessing the expertise of industry and Academia experts:** In 2021, section has taken a few initiatives to bridge the gap between academia and industry. For the next year, we plan to fuel these initiatives and utilize them for the member's benefit. We also plan to add new dimensions to the present industry connect initiatives. These initiatives are:
 - a) **Industry connect cell:** This year, we have established a Industry connect cell, dedicated to organizing the activities in association with industry experts and work for bridging the gap.
 - b) **Industry internship:** This year, for the first-time section has organized industry internship program for the student members. We were successful in getting a few experts and association with few selected companies. For the year 2022, the focus is to increase the number of companies as well participants.
 - c) **Industry Talk series:** To present a practical aspect of the technology to the members, section has started Industry talk series. In 2022, the plan to increase the frequency of these talks.
5. **More awards and recognitions for members:** It is very important to recognize the individual contributing the IEEE. For the same we have created section awards. These awards are to recognizes the outstanding volunteers, units etc. In year 2022, we are planning to float some awards to recognize the individual who are contributing to IEEE through their research work.
6. **Promoting members to senior members:** As it has been observed that the senior members are more likely to renew their membership. We are planning a dedicate effort to promote the members to senior member category. This will increase the membership renewal rate.
7. **More support to WiE, YP and SIGHT activities:** The activities of IEEE UP WIE, YP, and SIGHT Affinity group has increased this year. This can be credited to the financial support from the section to these units. Following which we witnessed many wonderful activities focusing on different aspects of the society,

including Cancer awareness, COVID, work-life balance etc. Section is planning to further increase the financial support to these units to make them more vibrant. It also plans to ensure the qualities of these events remain intact.

8. **More financial support membership benefits:** IEEE UP section support is membership in multiple ways. In the upcoming year, we are planning to increase the financial support for the different membership benefits including:
 - d) Student travels support
 - e) Student activities
 - f) Conference registration rebate
 - g) Student WiE activities
 - h) Graduate member activities etc.
9. **Support to pre-university activities:** This year IEEE UP section witness an increase in the Pre-university activities. We plan to maintain the momentum and organize more and more pre-university activity in year 2022.
10. **Support Professional activity:** IEEE UP section sanctioned professional project for the promotion of education, innovation, and Research & Development etc., in diversified area. Section has extended the financial support for the professional activities. We plan to increase the scope and impact to this initiative in the upcoming year.

B.6 Section's Best Practices

New Conference/Workshop Format Adopted: From 2018 onwards IEEE UP Section adopted a new application format for conferences/workshops sponsorship to be organized in Uttar Pradesh Section. The format is very comprehensive and detail information is required from the event organizers. Various guidelines are also provided to the organizers for organizing the event in the best professional way.

Webex meetings: From 2018 onwards section again started the webex-based and hybrid (Clusters connected via webex) executive committee meetings to curtail the meeting expenditures and better participation of the members and FOUR out of EIGHT executive committee meetings were the webex/hybrid meetings.

Oversight committee formation: IEEE Uttar Pradesh Section continued to form an oversight committee consisting of 2-3 executive committee members for each and every conference/workshop organized in the section and technically of financially sponsored by the section. The member of oversight committee are the direct link between the section and the organizers. The conference organizers may seek any help or assistance from the members of the oversight committee members to organize the event professionally and ethically. The oversight committee used to visit the event in person and observe the entire professional process and conduct in terms of the technical quality of papers, key-note speakers, review process, schedule, and any other relevant thing. The committee provides the report to the section and executive committee decides the further course of action on the basis of the feedback being provided by the oversight committee.

Democratic decision making: IEEE Uttar Pradesh Section has adopted the democratic decision making process and any decision is taken by the executive committee only except few limited power to the section chair. All the decisions are taken after due deliberations among the committee members. All the resolutions are recorded by the secretary in minutes and circulated among all the committee members.

L31 Event reporting: IEEE Uttar Pradesh Section from 2018 emphasised the advance L31 event reporting and many reminders are being sent by the secretary to all the chairs/conveners and other members of in the section. In year due to this practice IEEE Uttar Pradesh Section received the 2nd position by R10 and got reward-ed with the USD3500. The section is pushing the organizers to report each and every event on L31 and this is adding the reputation and visibility to the section. Direct impression upon the practice of reporting the event on Vtool resulted over 850+ event reported in year 2019 and again the Uttar Pradesh section got awarded with USD3500 as and incentive grant.

Section website: IEEE Uttar Pradesh Section is continuously updating all the events and important information on the section's website to keep the users up-to-date about the sections activities and operations. The website address is www.ieeeup.org and excellent interface between the event organizers and section. All the important forms and formats are being uploaded to the section's website.

E-newsletter: From 2018 onwards, IEEE Uttar Pradesh section started publishing the e-newsletter containing the information about the important events, achievements, messages, photographs, articles and many more which is relevant to the readers and appropriate for the section. In year 2018, two issues per volume and year 2019 FOUR issues per volume has been

published by the section, circulated among all the members of the executive committee and uploaded to section's website. All the e-newsletters published by the section are available on www.ieeeup.org

WIE/SIGHT/YP/STD event promotions: From 2018 onwards, IEEE Uttar Pradesh Section promoted the women in engineering (WIE), Special Interest Group on Humanitarian Technology (SIGHT), Young Professional (YP) and Students' related activities in the section. The section through its conveners promoted and supported the formation of the respective groups in the form of branches, chapters, and affinity groups. In year lots of the SIGHT groups have been formed and new student branches added in the section. Large number of activities has been organized by these groups and good grants received for the same.

Support for Participation in events organized by other IEEE OUs: The section use to support the participation of its executive committee members to attend various IEEE related activities organized by other IEEE OUs as well. Many of its members participated in IEEE leadership program, AISYWC congress hyderabad, SYWL Congress in bagalore, and abroad. The objective of supporting them was to equip them with the required knowledge and best practices while conducting such activities in future by the section. These participants were also the ambassadors of the section and represented the section very well at R10 level.

Support for Participation in AISYWC: In year 2018 and 2019, IEEE Uttar Pradesh supported the few executive committee members and branch officers from interested and potential student branches to participate and represent the section in this congress. The purpose of this support was to provide the exposure to its student branches and promote such activities in the section.

IEEE Day Grants: In year 2019, IEEE Uttar Pradesh Section continued providing the support to its student branches to celebrate the IEEE Day. This year the grant was provided on the basis of the branch performance and the student branches having more membership strength and activities received more grants. This practice will create a healthy completion among the student branches and more and more technical activities may be conducted in future.

Financial Sponsorship to the Conferences: In year 2019, IEEE Uttar Pradesh section provided the financial sponsorship to the FOUR conferences to be organized in 2019. The purpose of providing the financial conference is to support and promote the reputed conferences in the section and involvement of the section in organizing such conferences.

DL activities: The section and its other organizational units invited many eminent persons throughout the world as distinguished lecturers under DL program by different IEEE societies.

Chapter and Member Driven Initiatives: The section and its other organizational units use to organize many such activities throughout.

Distributed venue for EXECOM: IEEE Uttar Pradesh Section adopted to conduct its executive committee meeting at geographically distributed locations in Uttar Pradesh and Uttarakhand to ensure the promotion of section and greater participation of the members in the meetings. This also provides the vibrancy in the section and members gets motivated to extract the maximum benefit in terms of technical and professional competence.

Student activity committee: Amid the ongoing COVID pandemic, IEEE UP Section has formed its 1st section student activity committee, dedicated to the enhance the membership experience of the student community. The committee has taken the various initiative, among which the most significant is the section SAC workshop titled "IEEE UP SSAC."

Transition to online: Following the safety guidelines during COVID pandemic, IEEE Uttar Pradesh Section has adopted the online mode for all its activities. And doing so, it has maintained the enthusiasm of its volunteers.

PART C – Financial Reporting

Account Statement of IEEE UP Section for the Year 2021			
A.	Opening Balance as on 01.01.2021
