Chairman, India Council

Message

I feel proud of writing and conveying my heartiest greetings and good wishes in the form of this message to all the members on IEEE Uttar Pradesh Section, and other readers of this annual report of the IEEE Uttar Pradesh section. Personally I am very close to the UP section, as this is my parent section and I started my journey of IEEE from this section only. Since, I was very closely associated with the IEEE UP section in various capacities, I could observe the growth and feel the vibrancy of the section in almost all the facets of the activities, and needless to mention that, from the last few years the section is growing like anything. In terms of the IEEE related promotions, membership development, professional, technical, non-technical, social, networking, SIGHT, WIE, YP, students and other activities, the section made a mark, which is really distinct and eye-catching for all of us. As far as the professional and ethical practices are concerned the section is following a good benchmark. The section is associating so many young engineers, which is certainly beneficial for the research and development culture for the country and the society at large. I feel that the growth of the section is unstoppable now. I hope the section will continue to support all the IEEE members and keep promoting the real technical interests among the young lot of the section. My best wishes for the ever growth of the section.

Chairman, IEEE UP Section

Message

Greetings to All Members of the IEEE Uttar Pradesh Section. A big thank you to each member for making Uttar Pradesh Section a vibrant and dynamic community. It was my great privilege and honor to serve the IEEE Uttar Pradesh Section, in the role of Section Chair, in 2019. I want to thank you ALL for your continued support, enthusiasm, dedication, and passion behind our success, as being a volunteer-based organization; we could not survive without you. It is these volunteers that organize new professional, technical, and social activities throughout the section. I express my appreciation and extend my best wishes to all the volunteers who have been working hard to continue their efforts – or planning new initiatives on behalf of Uttar Pradesh Section and IEEE, in the Year 2020.

I am grateful to the dedicated Executive Committee members who have worked towards addressing the challenges and securing the enduring and meaningful improvements in the reputation of the IEEE Uttar Pradesh Section - and IEEE as a whole. Many thanks to the hard work of our past chairpersons, who have shown exceptional leadership in leading the Uttar Pradesh section. Their vision and goals will always lead us to achieve new heights. Also, we are thankful to the offices of the IEEE India Council and IEEE Region 10 for their continuous support.

The year 2019 was special for Uttar Pradesh Section. I want to highlight a few of our new accomplishments over the last year, other than regular ones:

Uttar Pradesh Section was recognized by IEEE for growing membership and meeting its recruitment goal for the 2019 membership year, based on Section's four-year performance. The U.P. Section has shown steady growth in membership having more than 3400 members, with 1800+ Student members, 200+ Senior Members, and 3 Fellows, by the end of 2019. Presently, we have 1 Subsection, 12 Section Chapters with 80 Student Branch Chapters, 82 Student Branches, and WIE & YP Affinity Groups. I appeal to all these Organizational Units for increased collaboration to provide a better

value of membership for our members. Moreover, I would like to inspire all volunteers to participate in various IEEE activities at local and global platforms.

In 2019, the IEEE Uttar Pradesh Section was awarded \$3500 by IEEE R10 under Section Initiative Grant Program. By the collective efforts of all the conveners, students' branch officers, and our members, we were able to report about 600+ activities. I thank our all-volunteer colleagues for making great efforts to organize events for their local IEEE community. I appreciate the untiring efforts of Dr. Satish K Singh in report preparation and it's a timely submission for this award.

Our Student members participated in 1 Day Lab visits to Nokia R&D Lab, Bangalore, organized by the IEEE India Council, on April 13, 2019, and May 07, 2019, to get a view of "Campus to corporate" life transition. Moreover, they participated in All India Student/YP/WIE Congress 2019 on September 28 - 30, 2019, at Hyderabad. Also, our WIE volunteers participated in IEEE WIE International Leadership Summit 2019 in Bangalore during August 30-31, 2019.

IEEE Region 10 International Workshop on *Panel of Conference Organizers "POCO-2019"* was hosted by the MMMUT Gorakhpur on Sep. 25, 2019, under the mentorship of Prof. SN Singh, to encourage and felicitate quality conferences in section. Our flagship Conference "UPCON 2019" has been successfully organized by AMU Aligarh

We are delighted with the addition of one IEEE Fellow in our Section In 2019, as Prof. Kartikeyan M. of IIT Roorkee for contributions to high-power millimeter-wave and terahertz sources.

Our colleagues Prof. J. Ramkumar and Mr. Ankit Yadav earned the *Outstanding Volunteer Award* and the *Outstanding Student Volunteer Award*, respectively, from *IEEE India Council*. These awards were the results of their continuous and dedicated endeavors. Congratulations to winners for bringing this proud moment for IEEE Uttar Pradesh Section.

We are privileged to have Prof. S.N. Singh-Chairperson - IEEE India Council, for our guidance and direction. For the first time, in 2019, the Chairperson - IEEE India Council has been elected from our U.P. Section, for which he will continue in the year 2020, too. We are indebted to Prof. Singh for providing continuous motivation and encouragement at every stage to all of us. The present state of vibrancy in our Section the result of his incredible efforts for sensitizing us.

In 2020, our focus is slated towards the implementation of varied and exciting programs of activities for members, increasing the activities of our student branches and affinity groups, maintaining the ascending member (including students) retention rates, more industry engagement, WebEx based Committee meetings and interaction

with members, facilitating members to open new chapters, affinity groups, and technical communities, more training and progression plans for volunteers, and strengthening the quality of our conference content and organization. Please share your new ideas with us, which we can implement to keep our Student Branches vibrant and to provide new services for the benefit of all members and our society. Recently, 2019 IEEE Uttar Pradesh section Awards are declared. I congratulate the award recipients who are generating new ideas, championing new thinking, and making an enduring impact on society for the benefit of humanity. Again, I look forward to your enthusiastic and active support in 2020.

Message

It is my pleasure to be a part of IEEE UP Section which has shown phenomenal growth in year 2019. I want to congratulate all the office bearers and members of Uttar Pradesh Section who have contributed significantly for making UP section very vibrant and marked noticeable presence on IEEE map globally. This year the growth in membership is more than 20% and number of activities has been increased by three times. We have also received several awards from IEEE like Outstanding Section Membership Recruitment Performance Award, Section Incentive award of USD3500 and Outstanding Volunteer Awards of India Council. The Section conference UPCON-2019 was also well organized by AMU Aligarh and set the new standards for this conference. I feel that the present Chairperson and Secretary undoubtedly brought the section at new level and have gone beyond the momentum of last year. Let us join me to recognize their dedicated efforts and time for betterment of Section. I am proud to be member of this family and want to convey my best wishes to incoming team of UP Section office bearers for year 2020.

PART A – Section Summary

A.1 Executive Summary

IEEE Uttar Pradesh Section, which is one of the TEN sections in India and geographically covering three operations in Uttar Pradesh and Uttarakhand. The Uttar Pradesh Section is located in Region 10, and is represented at the India Council. Although the IEEE activities were started in the section from 1970 and it was the sub-section under the Delhi Section. It was the whole hearted efforts of Dr. G. K. Dubey that a full section could be formed named as "IEEE U.P. Section" in December 1991, who took over as the first and the founder Chairman for the year 1992. Since then the IEEE Uttar Pradesh section is continuously involved in promoting the IEEE and various technical fields of interest through various activities. The membership growth and number of activities in the section is strictly monotonic since its inception and is the only reason that today it is one of the most vibrant sections in India. Today IEEE Uttar Pradesh section is un-ignorable and having the strong leadership not only at India Council level but at Asia Pacific level too. Presently Prof. S. N. Singh who was one of the past chairs of the section is the India Council Chair, 2019 & 2020 and represented at R10 level in various capacities. Many other executive committee and other members are having representation at India Council and R10 level. The section received many awards and recognitions in recent years. In last few years, many new student branches, branch chapters and affinity groups have been formed in the section. This annual report presents some facts and figures regarding vibrancy of the section in terms of the activities and membership strength in 2019. The next office may take a reference of this report and may plan the directions for 2020.

Summary and evidence of work done to improve the value of membership, which leads to retention and growth of members

In last few years IEEE Uttar Pradesh section has taken many active steps to improve the membership strength by,

1. Forming a membership development committee for the promotion, recruitment and retention. The section also recruited the committee convener, where Dr. Sunil Khatri and Dr. Rajat Kumar Singh took the responsibilities respectively.
2. The membership development committee and its members organized many promotional activities throughout the section.
3. Section provided the financial support for celebrating the IEEE Day by each and evry student branch on the basis of number of student members. So the branches having more members got more incentive. This also motivated the engineering graduate and post graduate students to become the IEEE student mebers.
4. Section made compulsory to involve the IEEE student members as volunteers by various conference organizers so that to pass the maximum benefit to such memebrs. Minimum 20

student members are required to organize any conference in the section. So if any organizer is not having the student branch then for securing the technical sponsorship from the section the organizers first have to form student branch and promote activities for at least one year, then they can apply for the sponsorship.

5. The event organizers are always advised to include the IEEE members at various level in IEEE UP section supported activities.
6. IEEE UP section's membership development committee also use to send repeated email regarding the renewal and recruitment of the members.
7. IEEE MGA awarded the section with 2019, outstanding section membership recruitment performance. Following log as provided by the MGA is a proof for the initiatives taken by the section.

8. Section organized many social events (lunchs and dinners) to provide a platform for the networking for the students and other professionals to motivate them to join IEEE.
9. The Proof for the membership development activities can be verified from the December 2019 Membership Development report as circulated by R10. The relevant portion of the report is attached herewith as a proof for the same,

B.4 Students Activities, 2019

- *Total number of Student Branches in the Section: 82 (EIGHTY TWO)*
- *Number of Student Branches formed in the current year: 10 (TEN)*
- *Section level student activities (student congress, paper and other contests, awards etc)*

IEEE Uttar Pradesh student body has 1700+ student members in 82 student branches. And this count is increasing consistently. I feel honoured to represent this body as section student representative. Through this report, I like to summaries my efforts and their outcome. The report has been summaries in three parts: 1) Connecting all, 2) Event reporting on vTool and OU analytics, and 3) Section representation.

1) Connecting all

As Section student representative, my primary focus has been to connect with all the IEEE Student members of Uttar Pradesh section. The motive is to create a long-lasting link between executive committee and student members, through which students and executive committee can communicate effortlessly about anything and everything that lies in domain of IEEE. Since, we usually face challenge in spreading the information among student bodies, we needed to overcome this obstacle too. So, I have chosen to utilise social media platforms. And I feel very pleased to inform that, I have been successful in connecting with more than 300 student members of different student branches. Currently, we have following social media networks through which IEEE student members of UP section are connected

- WhatsApp group - IEEE UP Students <https://chat.whatsapp.com/0bwVZpqT3G4KHMJr6Rykts>
- Telegram Group – IEEE UP Students <https://t.me/joinchat/Pd46rBXD78411otqrm7wQ>
- Facebook group – IEEE UP Students <https://www.facebook.com/groups/1275855662427254/>
- Facebook page – IEEE UP Section <https://www.facebook.com/pg/IEEE-UP-Section-102114554548231>
- LinkedIn page–IEEE UP Section <https://www.linkedin.com/company/ieee-up>

The students has responded very positively to the initiative. The WhatsApp and Telegram groups are consistently flooded with information of upcoming and ongoing IEEE activities. Apart from these platforms, I am in contact with many students over phone too.

2) Event Reporting on vTools and OU Analytics

For any student branch/chapter, organising and reporting of events are must. However, as these units are managed by students and they do not have the clear idea of its importance as well as of the process. So, I have taken initiative to make awareness. I have given few talks on topic "event reporting on vTool" which includes lectures during UP PES IAS congress 2019 and Leadership workshop at TMU, Moradabad. I have communicated with many students (in

person, over social media as well as through phone calls) to report the events they are organising and have also helped them to understand the process. As a result, we observe the increase in number of reported event. OU analytics is another useful portal of IEEE which is essential for management of any organisational unit. To create awareness among students, I have put my efforts through the IEEE Talks and social media platforms.

3) Section Representation

Throughout the year, I put my efforts on encouraging the fellow student to take part in activities in section as well as beyond its boundaries. This year we have observed increased participation of UP Section student members in multiple global activities beyond the section. Few such major event includes AISYWC 2019 (at Hyderabad), WiE International Leadership Summit 2019 (at Bangalore), AICSSYC 2019 (Anand, Gujrat), PES India Congress 2019 (at Bangalore), R10 PES Chapter Chair meeting 2019 (at Macau), IEEE RADIO 2019 Conference (Reunion Island) etc. Apart from this, few students are also involved in India Council and R10 level student groups and societies
