### Message

Wishing you all a Very Happy and Successful New Year 2024!!

I wish to convey my heartfelt greetings and the best wishes in the form of this message to all the members of IEEE Uttar Pradesh (UP) Section, and other readers of 2023 Annual Report of the IEEE Uttar Pradesh section. We all know that 2023 was a very fruitful year for the IEEE UP Section for various reasons after the Covid-19 pandemic. New officer bearers of IEEE UP Section for 2024 are going to take the charge as per our new IEEE UP Section Bylaws. Various new awards were added and huge growth of membership and events. IEEE members fully supported the actions of the section, and it will always be memorable to all of us. Personally, I am very close to the UP section, as this is my parent section, and I started my journey of IEEE in India from this section only. I was very closely associated with the IEEE UP section in various capacities and witnessed the growth and the vibrancy of the section in almost all the facets of the activities. Needless to mention that, from the last few years the section is growing like anything. In terms of the IEEE related promotions, membership development, professional, technical, non-technical, social, networking, SIGHT, WIE, YP, students and other activities, the section made a mark, which is really distinct and eye catching for all of us. As far as the professional and ethical practices are concerned, the section is following a good benchmark. The section is associating so many young engineers, which is certainly beneficial for the research and development culture for the country and the society at large. I feel that the growth of the section is unstoppable now. I hope the section will continue to support all the IEEE members and keep promoting the real technical interests among the young minds of the section. The leadership under UP Section Chair 2023, Dr Satish K Singh and secretary 2023, Dr Akhilesh Tiwari added some more feathers to it. I expect the same with the new Section Chair Prof Yogesh Singh Chauhan and this team 2024. My best wishes for the ever growth of this section.

### Message

It gives me immense pleasure to write this message as Chairman IEEE Uttar Pradesh Section 2023 for the annual report to be released in AGM-2023. My deepest condolences to all the departed souls of our near and dear, family members, and friends during the toughest time of Covid-19. It was really testing time and hope to have a better tomorrow ahead. I wish you all a very happy new year 2024. I am happy to state that despite the tough time of Covid-19 our section volunteers have demonstrated wonderful capabilities in the form of many big and impactful activities throughout the section. In terms of the activities, we crossed 2500. In terms of membership recruitment, retention, and reinstatement, we crossed the 5000 till December 2023. Section successfully organized the UPCON and 9 executive committee meetings including many other meetings, a general body meeting in 2023. The section has successfully run the membership elevation drive and a regular growth in member to senior-member has been observed on a YoY basis. The growth in terms of the StMs/GSMs, professional membership growth has been observed in 2023 on a YoY basis. Also, more than 40% growth has been observed in terms of the voting members in the section in 2023. In the year 2023, the section has successfully executed many initiatives like U10, Incentive Award, WIE, YP, SIGHT, Educational, Professional, Technical and Non-Technical. Several student branches and Chapters, and YP & SIGHT affinity groups received the annual rebate against their activities and reported to vTool. Separate project grants for YP, WIE, and Education have been received by the section. The section has started many awards and recognitions to connect its members. Section successfully executed the special certification workshops, seminars, webinars, hands-on for the StMs and GSMs. I just want to mention a few new initiatives like Graduate Talk Series, Conference Travel Grant Program for GSMs/StMs, Conference Registration Fee-Waiver Arrangements, Industry Connect Cell, Industrial Internship Program, YP Star of the Month Program, and WIE and YP Talk Series were successfully executed in 2023. A lot of vibrancy has been observed throughout the year 2023. The entire credit goes to section volunteers for their great efforts to keep such a high standard of the Uttar Pradesh Section. The section is growing at an express pace and hopefully will continue the same in 2023. My sincere thanks to all the volunteers of the section without whom it was not possible to attain such a high level. My best wishes for 2023.

## B.4 Initiatives by IEEE UP Section

IEEE UP section has always worked on to spread the philosophy of connecting people and making technology more relevant in the lives of the common man. IEEE UP section has always endeavored to achieve the objective of IEEE through its self-motivated volunteers. The year 2023 was particularly relevant terms of achieving this feat. The year 2023 saw a pragmatic

change in the working style of the section. The objective of IEEE UP section was make IEEE UP section more relevant for IEEE members in terms of their professional development. The point was to directly connect with each of the IEEE members and volunteers such that they feel the change in their lives. To serve this objective, IEEE UP section customized its policies to serve and satisfy the basic professional requirements of its members and volunteers.

The results of the efforts this year became visible in a short span of time. IEEE member and volunteer's satisfaction resulted in increased membership retention. The existing members therefore motivated new members to join. Large number of activities have been reported from majority of the units of IEEE UP section.

Below is the detail of all the activities that were launched by the section.

### **1. IEEE UP Section Volunteer Training Sessions:**

The Student activity committee was formed and then got into action. For the proper functioning of the IEEE units, it is very necessary that the volunteers at the root level understand the working of the IEEE. It is therefore that this time the Student activity committee of the IEEE UP section decided to hold training sessions on periodic intervals so that the newly joined volunteers of IEEE may get accustomed to the working environment of IEEE. It is with this objective that **volunteer training sessions** were organized by IEEE UP section. The volunteer training sessions were organized separately for counsellors of the student branches, student branch chairs, office bearers of the student branches and new members of the IEEE. The advantage of the volunteer training session was that the student participation increased.

### **2. IEEE UP Section U10 Initiative**

IEEE U10 Initiative was launched with the motive to activate the most potential and yet dormant IEEE members and units towards greater participation. The entire idea was that greater participation would mean membership retention and membership retention would mean more number of new membership.

Under the U10 initiative, units of the IEEE UP section were requested to send their plans for organizing at least 10 activities in the whole year. This proved to be very motivating for the various student units of the IEEE UP section. They not only held 10 planned activities but also continued with the momentum and planned many more activities. The U10 initiative has been one of the most successful initiative that has led to increased membership, particularly among the graduate students.

### **3. IEEE UP Section Industry Connect Initiative**

IEEE UP section launched the **Industry Connect initiative** that allowed several companies and experts to connect with IEEE UP Section for the benefit of graduate and under-graduate students.

#### **a) Industry Connect Cell**

To establish industry-academia connect, Industry Connect cell was formed. The formation of the Industry Connect cell helped to form several collaborations between industry

experts and academia. Internship program was implemented and several talks and hands-on were also implemented by Industry Connect cell.

#### **b) Internship programs**

Three **internship programs** were conducted by IEEE UP section in collaboration with different companies and experts. NCode Sutram for Artificial Intelligence Pvt Ltd., an IT company, provided internship programs to students in the domain of computer vision and biometrics. Two more internships were imparted by experts. The experts imparted internship in their personal capacity on behalf of IEEE UP section. The experts who provided internship are Dr. Daya Sagar Gupta, Assistant professor, Rajiv Gandhi Institute of Petroleum Technology, Amethi and Dr. Adil Sarwar, Assistant Professor, Aligarh Muslim University. A total of 5 students from IEEE UP section benefited from the internship program.

#### **4. IEEE UP Section SAC Workshop Series:**

The student activity committee of the IEEE UP section successfully organized collaborative workshops. The workshop was organized online. IEEE Technical Workshop encompassed technical, professional and nontechnical activities for young learners. This included webinars and counselling sessions. To increase participant engagement, activities like online quizzes, counselling sessions were held. To give the participants a hands-on experience of IEEE, the prominent members shared their experiences.

#### **5. IEEE UP Section Technical Hands-on Workshop Series:**

It is very necessary to apprise the students with the latest technological advancements. Such know-how always helps the engineering students to choose the technology of their choice and prepares them for professional challenges ahead. With this motive, one-day workshop series with hands-on was conducted. The experts from both industry and academia participated in the event and shared their experience and know-how with the IEEE members.

#### **6. IEEE UP Section Graduate Talk Series:**

IEEE UP Graduate Talk Series is an initiative of the IEEE UP Section to enhance the membership experience of the IEEE Members. It presents a unique opportunity to the Ph.D. student of the section to share their knowledge and idea with the engineering and research community. To the audience, it offers a glimpse of the ongoing research in different domains. While it provides an opportunity to the speaker to fine-tune their soft skills to the audience, it helps in understanding the vast scope of the field as well as guidance to their career planning. It presents a fantastic networking opportunity for both, and it will strengthen the research community.

#### **7. IEEE UP Section Webinar series:**

The Student activity committee of the IEEE UP Section initiated an IEEE Webinar series in collaboration with experts from industry and academia. The objective of the IEEE Webinar Series was to hold short 1-2 hour talk from experts in their domain. The most sought-after topics were covered in the IEEE Webinar Series.

## **8. IEEE UP Section IEEE Day Celebration:**

For all the volunteers across the world, IEEE day is a very special day. The IEEE UP Section planned to celebrate the day in a very special way so that all the units across the Uttar Pradesh section feel and celebrate the IEEE day in one toe. Initially, all the units of IEEE UP section were requested to send their plans for the IEEE day celebration. A special plan was launched for **IEEE Day Event Reporting & Financial Support from IEEE UP Section**. Under this plan, all the units who conducted IEEE day events as per their plan, reported the same on vTools, wrote the content for the section Newsletter was provided financial support from the IEEE UP section in proportion the number of members in their unit.

The IEEE was a huge success and units from IEEE UP section celebrated the IEEE day with enthusiasm.

## **9. IEEE POCO**

The IEEE Region 10 Panel of Conference Organizers (POCO) is a high level annual International Workshop held for event organizers throughout the countries of Region 10 having 61 Sections. POCO convenes workshop thought leaders and decision makers to address conference leadership practices, changes in policies and approaches specific to IEEE, to explore challenges in the conference landscape, launch new conference initiatives and to set new directions. If you are an IEEE Volunteer involved in conferences, this is an event must for you, your IEEE Organizational Units to be inspired by unparalleled learning, thought provoking and insightful sessions that will provide a real advantage to your conference planning.

### **2. Engaging all for enhanced experience**

The membership experience begins at the local units, and so, it is very important to have active student branches and chapters. To ensure that all the units are

active and involved in IEEE activities, we have taken a few new initiatives. Our focus to increase their impact by involving all the units as well as to launch few more initiatives. These initiatives are:

- a) **U10 initiative** – In this initiative, all the student units are required to organize minimum 10 activities per year. The units participating and completing this target will receive financial support from the section. In this way, all the dormant units will start organizing IEEE activities, which in turn will enhance the membership experience.
- b) **Volunteer training** – Volunteer training is an integral part for any organization unit to function efficiently. This year we have organized a series of volunteer training session for the office bearers of the student units. For the next year we plan to increase the frequency of these session. These sessions will focus on creating awareness about IEEE, its functioning tools etc. Also, they would help in activating the dormant units.
- c) **Section Activity Based Incentive Award** – Following the R10 activity-based incentive program, IEEE UP section has taken similar initiative for student units of the section. This has resulted in more vibrant student units. Our next plan is increasing the benefits for the units through this program.
- d) **Financial Support for IEEE Day activities** – With the motive to involve everyone and create awareness about IEEE. Section extends the financial support for IEEE activities by student units. In the upcoming year, we plan to increase the support for improving the event quality.

### 3. Create more opportunities for the members

IEEE UP Section is continuously creating new activities and opportunities for its members. This year we take few more initiatives in same direction. For the upcoming year, we plan to nourish these initiatives and also create few more similar initiatives. These initiatives are follows:

- a) **Graduate Talk Series** - IEEE UP Graduate Talk Series is an initiative of the IEEE UP Section to enhance the membership experience of the IEEE Members. It presents a unique opportunity to the Ph.D. student of the section to share their knowledge and idea with the engineering and research community. It is a wonderful platform for research-oriented discussions. We plan to increase the frequency of these talks in future.
- b) **YP Star of the month** - In this an initiative to identify and recognize the Young Professional for the continuous and contribution to IEEE and society.

### 4. Harnessing the expertise of industry and Academia experts: In 2022, section has taken a few initiatives to bridge the gap between academia and industry. For the next year, we plan to fuel these initiatives and utilize them for the member's

benefit. We also plan to add new dimensions to the present industry connect initiatives. These initiatives are:

- a) **Industry connect cell:** This year, we have established an Industry connect cell, dedicated to organizing the activities in association with industry experts and work for bridging the gap.
  - b) **Industry internship:** This year, for the first-time section has organized industry internship program for the student members. We were successful in getting a few experts and association with few selected companies. For the year 2022, the focus is to increase the number of companies as well participants.
  - c) **Industry Talk series:** To present a practical aspect of the technology to the members, section has started Industry talk series. In 2023, the plan to increase the frequency of these talks.
5. **More awards and recognitions for members:** It is very important to recognize the individual contributing the IEEE. For the same we have created section awards. These awards are to recognizes the outstanding volunteers, units etc. In year 2023, we are planning to float some awards to recognize the individual who are contributing to IEEE through their research work.
  6. **Promoting members to senior members:** As it has been observed that the senior members are more likely to renew their membership. We are planning a dedicate effort to promote the members to senior member category. This will increase the membership renewal rate.
  7. **More support to WiE, YP and SIGHT activities:** The activities of IEEE UP WIE, YP, and SIGHT Affinity group has increased this year. This can be credited to the financial support from the section to these units. Following which we witnessed many wonderful activities focusing on different aspects of the society, including Cancer awareness, COVID, work-life balance etc. Section is planning to further increase the financial support to these units to make them more vibrant. It also plans to ensure the qualities of these events remain intact.
  8. **More financial support membership benefits:** IEEE UP section support is membership in multiple ways. In the upcoming year, we are planning to increase the financial support for the different membership benefits including:
    - d) Student travels support
    - e) Student activities
    - f) Conference registration rebate
    - g) Student WiE activities
    - h) Graduate member activities etc.
  9. **Support to pre-university activities:** This year IEEE UP section witness an increase in the Pre-university activities. We plan to maintain the momentum and organize more and more pre-university activity in year 2023.
  10. **Support Professional activity:** IEEE UP section sanctioned professional project for the promotion of education, innovation, and Research &Development

etc., in diversified area. Section has extended the financial support for the professional activities. We plan to increase the scope and impact to this initiative in the upcoming year.

## B.6 Section's Best Practices

**New Conference/Workshop Format Adopted:** From 2018 onwards IEEE UP Section adopted a new application format for conferences/workshops sponsorship to be organized in Uttar Pradesh Section. The format is very comprehensive and detail information is required from the event organizers. Various guidelines are also provided to the organizers for organizing the event in the best professional way.

**Oversight committee formation:** IEEE Uttar Pradesh Section continued to form an oversight committee consisting of 2-3 executive committee members for each and every conference/workshop organized in the section and technically of financially sponsored by the section. The member of oversight committee is the direct link between the section and the organizers. The conference organizers may seek any help or assistance from the members of the oversight committee members to organize the event professionally and ethically. The oversight committee used to visit the event in person and observe the entire professional process and conduct in terms of the technical quality of papers, key-note speakers, review process, schedule, and any other relevant thing. The committee provides the report to the section and executive committee decides the further course of action on the basis of the feedback being provided by the oversight committee.

**Democratic decision making:** IEEE Uttar Pradesh Section has adopted the democratic decision-making process and any decision is taken by the executive committee only except few limited powers to the section chair. All the decisions are taken after due deliberations among the committee members. All the resolutions are recorded by the secretary in minutes and circulated among all the committee members.

**L31 Event reporting:** IEEE Uttar Pradesh Section from 2018 emphasized the advance L31 event reporting and many reminders are being sent by the secretary to all the chairs/conveners and other members of in the section. In year due to this practice IEEE Uttar Pradesh Section received the 2nd position by R10 and got rewarded with the USD3500. The section is pushing the organizers to report each and every event on L31 and this is adding the reputation and visibility to the section. Direct impression upon the practice of reporting the event on vTool resulted over 850+ event reported in year 2019 and again the Uttar Pradesh section got awarded with USD3500 as an incentive grant.

**Section website:** IEEE Uttar Pradesh Section is continuously updating all the events and important information on the section's website to keep the users up-to-date about the section's activities and operations. The website address is [www.ieeeup.org](http://www.ieeeup.org) and excellent interface between the event organizers and section. All the important forms and formats are being uploaded to the section's website.

**E-newsletter:** From 2018 onwards, IEEE Uttar Pradesh section started publishing the e-newsletter containing the information about the important events, achievements, messages, photographs, articles and many more which is relevant to the readers and appropriate for the

section. In year 20123 FOUR issues per volume has been published by the section, circulated among all the members of the executive committee and uploaded to section's website. All the e-newsletters published by the section are available on [www.ieeeup.org](http://www.ieeeup.org)

**WIE/SIGHT/YP/STD event promotions:** From 2018 onwards, IEEE Uttar Pradesh Section promoted the women in engineering (WIE), Special Interest Group on Humanitarian Technology (SIGHT), Young Professional (YP) and Students' related activities in the section. The section through its conveners promoted and supported the formation of the respective groups in the form of branches, chapters, and affinity groups. In year lots of the SIGHT groups have been formed and new student branches added in the section. Large number of activities has been organized by these groups and good grants received for the same.

**IEEE Day Grants:** In year 2023, IEEE Uttar Pradesh Section continued providing the support to its student branches to celebrate the IEEE Day. This year the grant was provided on the basis of the branch performance and the student branches having more membership strength and activities received more grants. This practice will create a healthy completion among the student branches and more and more technical activities may be conducted in future.

**Financial Sponsorship to the Conferences:** In year 2023, IEEE Uttar Pradesh section provided the financial sponsorship to the 2023. The purse of providing the financial conference is to support and promote the reputed conferences in the section and involvement of the section in organizing such conferences.

**DL activities:** The section and its other organizational units invited many eminent persons throughout the world as distinguished lecturers under DL program by different IEEE societies.

**Chapter and Member Driven Initiatives:** The section and its other organizational units use to organize many such activities throughout.

**Distributed venue for EXECOM:** IEEE Uttar Pradesh Section adopted to conduct its executive committee meeting at geographically distributed locations in Uttar Pradesh and Uttarakhand to ensure the promotion of section and greater participation of the members in the meetings. This also provides the vibrancy in the section and members gets motivated to extract the maximum benefit in terms of technical and professional competence.
